

New Brunswick Energy and Utilities Board

Rules of Procedure

Practice Directive #1

Date: October 16, 2017

The New Brunswick Energy and Utilities Board (Board) introduced its Rules of Procedure (Rules) on July 13, 2015. As you may be aware, a Review of the Rules and Settlement Process is currently ongoing.

Despite the current ongoing review, the Rules will be still be used in all Board proceedings.

To date, the Board has been flexible in the application of the Rules, as parties become familiar with the various sections.

Parties are asked to comply more strictly with the Rules, both in form and substance in any upcoming proceeding.
